

Nov.1

Webinars, On-Line Workshops and Journals

Wednesday November 4th at 4pm (eastern) - 1pm (pacific).

Light pollution and its effects

<http://www.discovertheuniverse.ca/formations/webinar:-light-pollution-and-its-effects-892.htm>

It is evident that artificial lights are affecting our view of the night sky. Recent studies have also shown that light pollution has negative impacts on animals, plants and even ourselves.

Wednesday, Nov. 4, 2015, 2 to 3 p.m. ET

Read for Success is a ground-breaking program intervention designed to combat summer learning loss and help early elementary students excel at reading. Tested over a two-year period as part of an Innovative Approaches to Literacy Grant from the U.S. Department of Education, RIF's evidence-based model is proven to increase students' reading proficiency and curb the "summer learning slide"—a contributing factor to the achievement gap. Over the two-year study, 57 percent of students saw gains in reading proficiency through access to high-quality books, enriching resources, books for summer reading, and professional development.

February 1-19, 2016

Discover the Universe offers an Online Astronomy Workshop for Teachers

Discover fascinating topics in astronomy, all connected to your school curriculum. The main part of the workshop will be a weekly one-hour webinar. This webinar will be at a set time (to be determined), but a recording will be available for those who cannot participate live. You can therefore easily include this workshop in your busy schedule! You will also have access to activities and resources ready to use in class. **Free**
